Foreword

This Standard is a revision of ISO 8317-2003 *Child-resistant packaging — Requirements and testing procedures for reclosable packages* (English version).

Compared with ISO 8317-2003 (E), main technical differences are as follows:

- a) Deleted the Foreword and Introduction of International Standard;
- b) Deleted the contents “If required, an official observer may be present in a particular situation in International Standard;
- c) Carried on appropriate editing changes to test processing;
- d) Adjusted the structure and sequence of the International Standard as follows:
 - Adjusted the Article 4.2 in International Standard into Clause 3 in this Standard;
 - Adjusted the Article 4.3 in International Standard into Clause 5 in this Standard;
 - Clause 5 and 6 of this Standard is corresponding to Clause 6 and 7 of International Standard, respectively.

This Standard is proposed by and under the jurisdiction of National Technical Committee (SAC/TC 49) on Packaging of Standardization Administration of China.

The responsible drafting organizations are China Productivity Center for Machinery, China Academy of Machinery Science & Technology and China Packaging Research & Test Center.

The chief drafting staff of this Standard includes Huang Xue, Liu Ping, Wang Zhenlin, Li Hua and Zhang Xiaojian.

Child-resistant packaging—Requirements and testing procedures for reclosable packages

1 Scope

This Standard specifies the packaging requirements and testing procedures for reclosable packages designated as resistance to be opened by children.

This Standard is applicable to the reclosable packages designated as resistant to be opened by children (hereinafter referred to as child-resistant packaging)
