X 22

Reference No: 37215-2012

**PROFESSIONAL STANDARD OF THE PEOPLE'S
REPUBLIC OF CHINA**

中华人民共和国国内贸易行业标准

SB/T 10373-2012

Replaces 10373-2004

Collagen casings

胶原蛋白肠衣

Issued on August 01, 2012

Implemented on November 01, 2012

Issued by the Ministry of Commerce of the People's Republic of China

Foreword

This standard was drafted in accordance with GB/T 1.1-2009.

This standard replaces SB/T 10373 - 2004, *Collagen casings*.

For the purpose of this standard, the main differences between this standard and the SB/T 10373-2004 are as follows:

- The requirements for the auxiliary materials of the raw materials are independently specified.
- The chemical and physical indicators and hygienic indicators for the product quality are respectively specified and the requirements for grading are deleted.
- The determination for compression strength and longitudinal anti-breaking force in the original standard are adapted.
- The requirements for deviation of the actual casing length are changed to comply with JJF 1070.
- With respect to the items of inspection in the factory, the requirements for coliform group are added.
- For the criterion rules of the inspection in the factory and the type inspection, the requirements for relevant microbe indicators are added.

This standard was proposed by China General Chamber of Commerce.

This standard was proposed by the Ministry of Commerce of the People's Republic of China.

The drafting organizations of this standard include Wuzhou Shenguan Collagen Casings Co., Ltd, Viscofan Technologies (Suzhou) Co., Ltd, Shandong Guanhua, Collagen Casings Co., Ltd and Center for Standard of China General Chamber of Commerce.

The chief drafting staff of this standard include Mo Yunxi, Ying Yaqi, Hu An, Kong Lingshan, Liu Weidong, Zhang Xi, and Zhang Chen.

This standard replaces the following historical editions issued:

- SB/T 10373 - 2004

Collagen casings

1 Scope

This standard specifies the collagen casings terms and definitions, raw and auxiliary materials, technical requirements, inspection method, inspection rules, labeling, packaging, transportation, and storage, and recall requirements.

This standard applies to product production and inspection defined in Sub-clause 3.1.

2 Normative reference

The following normative documents for application of this document are indispensable. For dated References, only the dated edition applies to this document. For undated References, the latest edition (including all amendments) applies.

GB/T 191 Packaging - Pictorial marking for handling of goods

GB 2760 National food safety standards – Standards for uses of food additives
