中华人民共和国国家标准

GB/T 8162-2008

Replace GB/T 8162-1999

Seamless Steel Tubes for Structural Purposes

结构用无缝钢管

Issued on August 19, 2008

Implemented on April 1, 2009

Jointly issued by the General Administration of Quality Supervision, Inspection and Quarantine of the People's Republic of China and Standardization Administration Of The People's Republic of China.

Forwards

This national standard is not equivalent to EN 10297-1: 2003 "Seamless Circular Steel Tubes for Mechanical and General Engineering Purposes-Technical Delivery Conditions".

This national standard replaces GB/T 8162-1999 "Seamless Steel Tubes for Structural Purposes", while comparing with it, this Standard has the following major variation:

- add order content;
- modify allowable deviation of the dimension;
- add requirements of the full-length tortuosity factor;
- add requirements of the terminal shear drag;
- cancel marking illustrations;
- add steel grades;
- cancel requirements of the expanding test;
- add negotiation provisions of the nondestructive test

This national standard is proposed by China Iron & Steel Association.

This national standard is under jurisdiction of China Steel Standardization Technical Committee.

This Standard is mainly prepared (organizations) by Angang Steel Company Limited, Pangang Group Chengdu Iron & Steel Co., Ltd. and Hunan Hengyang Steel Tube Group Co., Ltd.

This Standard is mainly prepared by (staffs): ZHANG Huixuan, ZHANG Peng, PIAO Zhimin, LI Qi, ZHAO Bin and LI Zhi.

This national standard replaces the previous versions:

- GB/T 8162-1987, GB/T 8162-1999

Seamless Steel Tubes for Structural Purposes

结构用无缝钢管

GB/T 8162-2008

1. Scope

This national standard specifies order content, size, shape, weight, technical requirements, test methods, test rules, packaging, marking and quality certificate of seamless steel tubes for structural purposes.

This Standard is applicable to seamless steel tubes for mechanical and general engineering structural purposes.

2. Normative References

The following standards contain provisions which, through reference in this text, constitute provisions of this national Standard. For dated reference, subsequent amendments (excluding amending error in the text) to, or revisions of, any of these publications do not be applied. However, the parties whose enter into agreement according to these specifications are encouraged to research whether the latest editions of these references are applied or not. For undated references, the latest edition of the normative document is applicable to this national standard.
