

**ELECTRIC POWER INDUSTRIAL STANDARD OF
THE PEOPLE'S REPUBLIC OF CHINA**

中华人民共和国电力行业标准

DL/T 5017-2007

**Specifications for manufacture installation and acceptance
of steel penstocks in hydroelectric and hydraulic engineering**

Approved by: National Development and Reform Commission

Effective date: December 1, 2007

NOTICE

This code is written in Chinese and English. The Chinese text shall always prevail in the event of any inconsistency between the Chinese text and the English text.

Content

1	Scope	3
2	Normative References.....	4
3	General Provisions.....	5
4	Manufacture of Steel Penstocks	7
5	Installation of Steel Penstocks	15
6	Welding of Steel Penstocks.....	17
7	Post-weld Stress Relief Treatment of Steel Penstock.....	30
8	Anticorrosion of Steel Penstocks	32
9	Hydraulic Test.....	36
10	Packaging, Transportation.....	37
11	Acceptance.....	38
	Annex A (Informative Annex) Performance Standard and Surface Quality Standard of Steel Plates	39
	Annex B (Informative Annex) : Steel Plates in Common Use for Manufacture of Steel Penstocks Abroad.....	54
	Annex C (Informative Annex): Permissible Thickness Deviation and Additional Thickness Value of Steel Plates.....	56
	Annex D (Normative Annex): Preparation, Size, Test Method and Approval Standard of Test Piece for Mechanical Property in Welding Process Specification Assessment.....	58
	Annex E (Informative Annex): Recommended Forms for Welding Process Instruction and Assessment Report....	65
	Annex F (Normative Annex): Classification and grouping of steel material according to chemical composition, mechanical property and welding performance	70
	Annex G (Normative Annex) : Welding Procedure Qualification of Composite Stainless Steel Plate	72
	Annex H (Informative Annex): Selection of welding material of penstocks.....	73
	Annex I (Normative Annex) :De-rusting Grade of Steel Surface before Painting	82
	Annex J (Informative Annex): Conversion Table for Atmosphere Dew-point.....	83
	Annex K (Informative Annex): Check of Metal Coating Thickness and Binding Ability.....	84

1 Scope

The Specification defines the technical requirements of steel penstocks for hydraulic and hydropower project.

The Specification applies to manufacture, installation and acceptance of steel penstocks used in large and medium sized hydraulic and hydropower project, and may also be applicable to small hydraulic and hydropower project.

The Specification applies to manufacture, installation and acceptance of steel liners of flushing sluice and drainage outlet (hole).
