## Foreword

**Chapter 2 and Chapter 3 of this Standard are recommendatory, and the remainders are mandatory.**

This Standard was drafted according to the rules specified in GB/T 1.1-2009.

This Standard replaced the GA801-2008 *Code of Practice for Inspection of Power-driven Vehicles*. In addition to editorial modification, the main technical changes are as follows compared with GA801-2008:

- Modified the scope of application of the standard; (See Chapter 1, in 2008 edition);
- Modified the terms and definitions of inspection (See 3.1, in 2008 edition);
- Modified the vehicle types and business types of the power-driven vehicles inspected by the civil police, as well as the supervision ways of the inspection of power-driven vehicles in other vehicle types and business types (See 4.3, in 2008 edition);
- Modified the scope of the vehicle models of seat belts, the vehicle body reflective marking, the vehicle tail marking plate, the driving record device, the emergency exits / emergency hammer, external mark / text, painting and other items of vehicles to be inspected (See b), d), g) - i) of 5.1.2, b) of 5.2.2, in 2008 edition).
- Added the requirements of the inspection speed limit function or speed limit device, auxiliary brake device, disc brakes, anti-lock brakes, engine compartment automatic fire extinguishing devices and other safety devices (See the m)-q) of 5.1.2)
- Added the requirements of the inspection items of the specialized vehicles for the disabled (See the k) of 5.1.2, the d) of 5.2.2 and the 5.3.8);
- Added the requirements of the inspection items of the school bus (See the l) of 5.1.2, the e) of 5.2.2, 5.4.1, 5.4.4 and 5.4.5);
- Added the inspection working requirements on the specialized vehicles for the disabled and school bus and the inspection working requirements on the items related to the vehicle structure or safety devices. (See 6.2, 6.11);
- Added the special requirements of organizations such as the power-driven vehicle safety technology inspection agency (which independently undertakes issuance of inspection marks and inspection of power-driven vehicles) and the distributors of branded automobiles (which independently undertakes inspection work of non-operating small and

mini-sized passenger vehicles (see 6.10) ;

—Modified the *Table A.1 The Qualified Requirements of the Power-driven Vehicle Inspection*, added the inspection qualified requirements on the manipulation auxiliary devices of the bus school, the safety device and the specialized vehicle for the disabled. (See Annex A, in 2008 edition);

—Added the inspection record table of school bus (See Table B.2 of Annex B).

This Standard is proposed by and is under the jurisdiction of the Technical Committee for Standardization of Traffic Management of the Ministry of Public Security.

The unit responsible for drafting this Standard is: Traffic Management Scientific Research Institute of the Ministry of Public Security.

The unit participating in drafting this Standard is: Vehicle Management Office of the Ministry of Public Security Traffic Management Bureau.

The main drafters of this Standard are: Ying Zhaoyang, Liu Xuemei, Wu Yunqiang, Qin Dongwei, Zhang Jun.

This Standard was first issued in 2008 and this is the first revision.

# Code of practice for inspection of power-driven vehicles

## 1 Scope

This Standard specifies the personnel qualifications, items, work requirements and other relevant requirements of the inspections of power-driven vehicle.

This Standard applies to the inspection of the power-driven vehicle performed by the traffic administrative department of the public security organ and the unit passed the examination of the traffic administrative department.

## 2 Normative References
